Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Robert L. Starnes, on 9/21/2006.

#### **Examiner's Amendment to the Claims**

Cancel claims 79.

In claim 74, line 3, after "the "-10" region", insert --- and having the nucleic acid sequence of SEQ ID NO:26 or SEQ ID NO:27 further ---.

#### **Examiner's Amendments to the Specification**

The following is an **Examiner's Statement of Reasons for Allowance**:

Claims 74, 82-93 are directed a Bacillus cell comprising a nucleic acid construct comprising (a) an amyQ promoter of specific nucleic acid sequence operably linked to a nucleic acid sequence encoding a desired polypeptide and (b) a CryIIIA mRNA processing stabilizing sequence located downstream of said amyQ promoter and upstream of the nucleic acid sequence encoding the polypeptide, wherein the mRNA processing/stabilizing sequence increases expression of the nucleic acid sequence encoding said polypeptide.

Claimed amyQ promoters are free of prior art. Further, the prior art does not teach or suggest preparing such specifically claimed promoters. Hence said promoters are also non-obvious. Since said promoters are both novel and non-obvious, a construct comprising said promoters as specifically claimed and a bacillus cell comprising said construct are also novel and non-obvious.

**Claims 74, 82-93 are allowed.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
